

How Are You?

14-16 years Swindon Year 10 students

Summer 2022

Headline Data

686 year 10 students from 8 settings completed the survey in summer, 2022.

There were wide variations in the percentage of the year 10 cohort completing with only 3 settings having enough respondents to make the data meaningful in their setting. As an amalgamated data set the findings are more useful.

Headline data:

Most students (**87%**) selected either male or female as their gender. **3%** selected 'Trans', **4%** 'non-binary' and **6%** selected 'other' or 'prefer not to say'. Some of the 'other' comments are not helpful, however, they are a minority and the data is in line with what is being reported across UK schools who have completed the survey.

23% reported that they identify as LGBTQ+ and **4%** 'prefer not to say'. It is increasingly common for young people to report this way. Feedback from schools suggest that young people are more likely to acknowledge that they do not yet know how they identify sexually as they have yet to experience an intimate/romantic relationship. (They are most likely to be Questioning (Q) in this respect).

94% do not smoke, if using the NHS definition of a smoker (less than 2 cigarettes per week) this rises to **96%**. Vaping is increasing across the country and **16%** report that they vape. **9%** report that they use cannabis and **6%** report having used other drugs, however, the follow up question suggests that a proportion have quit. It is likely that around 22 year 10 students are using drugs other than cannabis which equates to 3% of the survey sample.

80% of year 10 students rarely or never drink alcohol.

17% of students report sending an indecent image and **42%** have received an indecent image.

66% do not view pornography.

Perception data:

There is significant misperception about peer group behaviour below. It would be useful to dispel the myth around the numbers engaging in risk-taking behaviour.

Knowing facts about peers is protective as it reduces the likelihood of engaging in risk when students know that the majority are making safer choices.

Activity	Perception	Reality
Smoking	32%	6% (4% NHS definition)
Vaping	49%	16%
Cannabis	23%	9%
Other drugs	19%	6%
Alcohol*	46%	20%
Uploading image	31%	17%
Pornography	57%	34%
Sex**	24%	12%
Knife carrying***	19%	3%

*Alcohol question asks about regular drinking. Most students, 80% drink alcohol infrequently or not at all. 12% report drinking a few times a month and 8% most weeks.

** This question can be skipped if students find it too sensitive to answer. 33 students (5%) chose to skip the question.

***Knife carrying has an option to 'rather not say' and 29 students (4%) chose this option, however some of this group then answered the follow up question. It is likely that around 28 students (4%) are carrying a knife. 18 students (2.6%) report that they are carrying a knife for 'own protection'.

Mental health:

Bullying figures vary by type of bullying.

16% report 'sometimes' or 'often' experiencing physical bullying.

21% report 'sometimes' or 'often' experiencing online bullying.

38% report 'sometimes' or 'often' experiencing verbal bullying.

Verbal bullying or 'banter' is by far the most common type of bullying experienced across all settings.

65% know where and how to report bullying and other types of harassment.

39% are confident to report bullying and that school will deal with it.

49% are confident to report and that school will act on harassment/assault.

These questions are very relevant about safeguarding and the type of questions that inspectors are likely to ask pupils.

Confidence to report is a key Ofsted indicator in line with Keeping Children Safe in Education (Sept 22), so this data indicates a potential issue for Swindon schools.

Who students can turn to for support

91% report that they have at least one friend they can turn to for support
80% report that there is someone at home they can turn to for support
68% report that there is a member of staff in school they can talk to if they need support.

This indicates that friends are likely to be each other's first line of support. Therefore, young people need to be equipped to help their friends and have strategies and knowledge to manage this.

58% have healthy ways to manage emotions
65% report they are resilient
44% try not to compare themselves to others
70% are happy or ok with how they look

This indicates a significant number of pupils may not have suitable self-care strategies or have not been taught about them in school. This fits with the broader data from schools who complete the survey across the UK, where pupils are often taught about the mechanics and symptoms of different mental health conditions, but less frequently about a range of self-care and prevention strategies.

Self-Harm

41% have 'ever' self-harmed, however, **50%** of this group report that they have now stopped.

21% of year 10 students surveyed report that they currently self-harm.
13% do so infrequently i.e. less than monthly
4% report self-harming most weeks
4% report self-harming most days.

The 'ever' self-harm figure and on-going self-harm results are higher than we tend to see in other UK schools.

Sex

12% report that they have had sex however, 33 students (5%) skipped the question and a few who skipped the question answered the follow up question suggesting that a few more have had sex.

Of those answering the follow up question about sexual behaviour:

45% did not practice safe sex (i.e., condom use to protect from STIs)
12% reported engaging in sex under the influence of alcohol or drugs
16% reported that they'd had sex against their wishes i.e., no consent

Pornography & safety

66% of year 10 students report that they do not view pornography
13% view pornography infrequently (once per month or less)
7% view pornography a few times per month
14% view pornography weekly or more

77% report that they know what being exploited means
89% report that they know what grooming is

Study, exams, future plans

56% report that school has given good advice about exams
33% feel prepared for end of year exams
37% report that they have strategies for managing exam and study stress
45% know what options are available if exams don't go as planned

Aspirations – post 16

64% plan to continue their education at school or college post 16
12% plan on looking for an apprenticeship
15% don't know
5% selected 'other'

Aspirations - post 18

36% plan to go to university
23% plan to find a job
8% plan to look for an apprenticeship
7% want to take a gap year
20% don't know
5% selected 'other'

Students were also asked to select the type of job role/profession they aspired to longer term (question 52) and details can be found on pages 75-81. 21% of students selected 'other' for this question, although many of the comments in free text box align to the choices available. A popular future ambition is to do something in the world of sport.

What students think of PSHE

61% report PSHE being useful. (Range includes sometimes to very useful).

Students were asked to rate topics that should be covered in the PSHE curriculum. The topics align directly to the RSHE content which became statutory in September 2020.

Areas where less than **35%** gave a topic a good score, i.e., they have little knowledge of the topic have been highlighted in yellow. Where this is over 50% it has been highlighted in red. There are a wide range of themes across PSHE where students report that they have received little or no input. This may be because of missing school during various lockdowns over the past 2 years. However, the feedback suggests significant gaps in PSHE provision.

This is concerning given the increased Ofsted focus on PSHE in regard to Personal Development, Safeguarding and Leadership & Management inspection judgments. As part of this project schools have been given access to resources that will address all the students’ comments- however, the data suggests schools are not using these consistently, if at all. We would recommend some training for PSHE leads be implemented as soon as possible to raise awareness of the materials and to share the data in this report including the pupils’ concerns about PSHE provision.

Many comments have been made by students in the free text areas and these have been highlighted yellow where they refer to specific topic areas. Comments highlighted blue identify comments indicating very little or no PSHE input.

Topic areas commonly highlighted as lacking include:

- Budgeting, finance, life skills, being prepared for adult life etc.
- First aid
- LGBTQ+
- Sex education
- Mental health, particularly strategies
- Racism
- Protected characteristics in general
- Careers (not just academic)

Some students have given insightful comments, and many want more and/or better quality PSHE/Personal development lessons. There are also some rude comments but these are a minority. Only blank lines or ‘don’t know’ have been removed.

45. If you could improve the PSHE / Health and Wellbeing / Personal Development lessons in your school what would you suggest?

54	09/06/2022 20:38 PM ID: 193037521	Get a better teacher
55	09/06/2022 20:54 PM ID: 193039189	learn things that actually makes us interested
56	09/06/2022 20:56 PM ID: 193038755	They should teach children about the importance of not comparing yourself to others , as it can be dangerous and potentially harmful.
57	09/06/2022 21:47 PM ID: 193041832	That they be more organised and more involved with students opinions and views rather than some other, probably young adult's, point of view on us.
58	09/06/2022 22:24 PM ID: 193045113	Have more external speakers come in for PSHE and talk to us for 1hr e.g someone from CIC Newbury ect.
59	09/06/2022 22:56 PM ID: 193047026	Stop doing those online teams calls, they're useless and boring - no one finds them interesting at all.
60	09/06/2022 23:24 PM ID: 193048100	Do more topics and focus more on everyday living in the future like money management

129	22/06/2022 09:25 AM ID: 193883668	schools should show multiple studies of ethnically diverse and gender and sexuality diverse, to show how it can differently affect each one
130	22/06/2022 09:27 AM ID: 193883683	i would suggest that they make them more frequent and personal and have people who understand the type of struggles teenagers go through, not just a random school teacher who doesnt know much about it
131	22/06/2022 09:27 AM ID: 193883790	I would say that they should make them more helpful for personal development
132	22/06/2022 09:27 AM ID: 193883799	delve deeper into deeper issues
133	22/06/2022 09:27 AM ID: 193884150	teach relevant or important shit, or just outright get rid of the damned things
134	22/06/2022 09:27 AM ID: 193884138	show more of the affects on people.

141	23/06/2022 11:55 AM ID: 193989216	Actually teaching us stuff

45. If you could improve the PSHE / Health and Wellbeing / Personal Development lessons in your school what would you suggest?

142	23/06/2022 11:56 AM ID: 193988471	sit next to someone you feel comfortable with
143	23/06/2022 11:56 AM ID: 193988578	sit next to a friend not someone you arent comfortable with.
144	23/06/2022 11:58 AM ID: 193988157	i would suggest talking to people with personal experience to know how to deal with it more accurately and try to let people know before the lesson incase some people get triggered easily so they won't feel pressured and singled out to stay in the lesson if they're uncomfortable
146	23/06/2022 11:59 AM ID: 193989256	More lessons a fortnight
148	23/06/2022 12:02 PM ID: 193989505	do more lessons on mental health
149	23/06/2022 17:42 PM ID: 194025055	I would suggest having more lessons and also doing positive matters or topics that we will need in the future instead of constant lessons on violence and hate.
150	24/06/2022 08:09 AM ID: 194056835	I would suggest student input and genuine care for the subject
151	26/06/2022 12:41 PM ID: 194174265	it's shit

257	14/07/2022 22:37 PM ID: 195655288	'mental health' has become a bit of a buzzword thrown around to try and make people feel better to the point where it now means nothing and you may as well not bother covering it at all. the presentations sound like they were not written by actual people and having obscure 'singers' come in and waffle about something I don't care about

45. If you could improve the PSHE / Health and Wellbeing / Personal Development lessons in your school what would you suggest?

6	07/06/2022 17:34 PM ID: 192799739	havent talked about anything to do with lgbtq+ topics at all :(
7	09/06/2022 16:56 PM ID: 193010430	There is practically no LGBTQ+ lessons and no lessons informing us about how harmful homophobia/transphobia is. It probably explains why people in schools are so ignorant and homophobic/transphobic to others.
8	09/06/2022 17:19 PM ID: 193013474	Online safety tends to be 'stay away from it'. Could be more on sexual exploitation (what do people look for, etc.) Consent is usually lenient - looking for a strong 'no' when anything but 'yes' is questionable. We had one lesson on being LGBTQ+ and most people made fun of it. One boy said 'what if you just don't support it?' It didn't teach much. I don't know how to have relationships. Most of the discussions on discrimination have happened outside of PSHE (year 9 art was good at tackling this with BLM, sometimes English or history) but nearly none of the education we get on discrimination

47. How would you rate the PSHE / Health and Wellbeing / Personal Development you have received in secondary school on the following topics?

		really talks about how bad it is and often times students (that aren't in the communities) make 'jokes'.
9	09/06/2022 21:47 PM ID: 193041832	LGBTQIA+ even if discussed, gets made fun of and that makes those who are closeted or open, uncomfortable and not want it to be mentioned ever again for the fear of being bullied by others.
10	09/06/2022 22:24 PM ID: 193045113	I would like to learn more about gangs ect. Have people come in (such as police) and talk to us about it
