# Mental Health

Image by Freepik

- This month we want to raise awareness about mental health.
- May is Mental Health Awareness Month.
- The 13th-19th May 2024 is Mental Health Awareness Week organised by the [Mental Health Foundation](#) – the theme is ‘Movement: Moving more for our mental health.’
- Swindon Safeguarding Partnership is supporting this initiative and we want to raise awareness about the information and resources available.
- Over the next few slides we have provided you with some links to useful resources and websites. Please note this is not an exhaustive list.
- Special thanks for assistance in developing this resource to Polly Simpkins and Richard Steptoe, Public Mental Health, Swindon. Judith Vosper, and Gareth Draper-Green, MIND Swindon & Gloucester.

**#mentalhealthawareness**

# Mental Health

- In many ways, mental health is just like physical health: everybody has it and we need to take care of it.
- Good mental health means being generally able to think, feel and react in the ways that you need and want to live your life. But if you go through a period of poor mental health you might find the ways you're frequently thinking, feeling or reacting become difficult, or even impossible, to cope with. This can feel just as bad as a physical illness, or even worse.
- Mental health problems affect around one in four people in any given year. They range from common problems, such as [depression](#) and [anxiety](#), to rarer problems such as [schizophrenia](#) and [bipolar disorder](#).

Source: [What are mental health problems? - Mind](#)

# Mental Health

One in four adults and one in 10 children experience mental illness, and many more of us know and care for people who do.

Source: [NHS England » Mental health](#)

Further information can be found [Mental health statistics: prevalence, services and funding in England - House of Commons Library \(parliament.uk\)](#)

# Mental Health Facts and Statistics

## How common are mental health problems?

- 1 in 4 people will experience a mental health problem of some kind each year in England [\[1\]](#).
- 1 in 6 people report experiencing a common mental health problem (like anxiety and depression) in any given week in England [\[2\]](#).

## Suicidal thoughts and self-harm aren't mental health diagnoses. But they are related to mental health.

- Over the course of someone's lifetime [\[2\]](#):
- 1 in 5 people have [suicidal thoughts](#)
- 1 in 14 people [self-harm](#)
- 1 in 15 people attempt suicide.
- Women are more likely to have suicidal thoughts and make suicide attempts than men [\[2\]](#). But men are 3 times more likely to take their own life than women [\[4\]](#).

# Mental Health and Wellbeing in Swindon

**Key facts on Mental Health and Wellbeing** taken from the Joint Strategic Needs Assessment (JSNA) for Swindon – updated March 2024 - [PowerPoint Presentation \(swindonjsna.co.uk\)](https://swindonjsna.co.uk) *(this will go into your downloads folder)*

- An estimated 34,100 people (15.3%) in Swindon aged 16-74 years living with a common mental disorder (CMD), defined as any type of depression or anxiety.
- Data from GP registers indicates that in 2020/21, Swindon had 22,766 people with diagnosed depression (11.9% of adults), and over 2,000 of these were new diagnoses in the past year.
- Number of depression diagnoses in Swindon fell in 2019/20 and 2020/21, in line with the national trend. However, an ONS analysis of national trends in GP diagnosed depression in the adult population during the first wave of the pandemic compared to pre-pandemic levels showed that depression diagnoses as a percentage of all diagnoses increased slightly.
- Largest increases in new diagnoses were seen in people aged 45 years and older, people from the Chinese ethnic group, and among people living in the second most deprived areas. This may indicate that many people are not accessing medical help.
- In 2020/21, there were 10,500 people in Swindon in contact with NHS secondary mental health, learning disabilities and autism services, of whom 2% (195 people) required hospital admission.

Approximately a third (34%) of these people were aged under 18.

# Mental Health and Wellbeing in Swindon continued

- Over a three year period from 2018-2020, 52 people (aged 10+ years) died by suicide in Swindon. This is a rate of 9.1 per 100,000, similar to the England rate of 10.4 and slightly lower than the rate for the South West at 11.6. Of these, 78% were male.
- In 2020/21, there were 735 emergency hospital admissions in Swindon for intentional self-harm. This is a higher rate than other areas across the South West and England (340.7 per 100,000 compared with 249.4 and 181.2 per 100,000 respectively). Trends show that Swindon's rate has been consistently higher than England since 2010/11 with some fluctuations year on year. The rate peaked in 2018/19 at 407.0 per 100,000 but has dropped down since.

# Mental Health and Wellbeing in Swindon continued

- Hoarding Disorder (HD) is a mental health condition where people may hold onto possessions that others may see as no longer useful. However, for the individual these possessions may be seen as a vital coping strategy. In some cases it can lead to living spaces becoming unsafe, unusable, present a fire risk, and even lead to eviction. The International Obsessive Compulsive Disorder (OCD) Foundation estimates that between 2%-6% of the population lives with HD.
- Based on Swindon's population estimates, this would translate to between 4,400 and 13,320 people. About 5% of these people are likely to come into contact with local authorities. Swindon Borough Council offers a long term support service for people impacted by self-neglect and hoarding and who feel able and willing to make a change.
- Speak to Live Well for more information - [Contact the Live Well Swindon Hub |](#)

# Public Health – Mental Health updates

- Swindon Public Mental Health strategy and action plan (launched February 2023) details how public health will work together with stakeholders to promote and improve mental health.
- Key priority areas are;
  - **Suicide and self-harm prevention**, with a particular focus on children and young people: work with partners to identify the challenges, explore points of intervention and develop a joint approach to reduce self-harm and suicide in Swindon.
  - **Mental health in boys and men**: explore avenues to promote better mental wellbeing and support them to seek help.
- Progress to date includes:
  - **Swindon Locality Suicide Prevention and Self-harm meeting** - meets quarterly to provide leadership, oversight and partnership working to reduce the rate of suicide and self-harm within Swindon in line with national and local strategy and policy.
  - **Swindon Locality Suicide Prevention Action Plan** - the priority areas reflect those identified within the National Strategy – the above group are working through the actions in 2024/25, now the plan has been agreed.

# Public Health – Mental Health Updates

- **BSW Suicide Prevention Refresh Strategy** – due for release shortly. Priorities identified are postvention and bereavement support services, suicide awareness raising and continued training of partners and collection of high quality, real-time suicide data across BSW. Middle aged men and younger aged adults were identified by the working group as priority groups.
- **Rethink – Swindon Suicide Bereavement service** - Swindon and Wiltshire Support after Suicide Service from Rethink Mental Illness commenced in Swindon in December 2023. Providing support to those of any age in Swindon and Wiltshire who are bereaved by suicide e.g. family, friends and people exposed to suicide e.g. witnesses, first responders, neighbours, colleagues and health and social care professionals. The service is free to access. [Swindon and Wiltshire Support After Suicide \(rethink.org\)](https://rethink.org)
- **QES Swindon real time suicide surveillance system and national and regional surveillance** – launched in June 2023 this system enables suspected suicides to be logged onto the system and each death discussed with partners to ascertain whether there are any commonalities, themes and if there are any preventative measures which could have been taken, areas of service improvement and good practice. SBC Public Health team are signed up to the national suicide surveillance dashboards and work with colleagues across the South West on Suicide prevention and surveillance.

# Public Health – Mental Health Updates

- **Suicide prevention training** - SBC Public Health are developing a robust all age suicide prevention training package for professionals across the Swindon. Aim of the training is to upskill the local workforce to feel more confident in recognising and responding to adults and children who maybe experiencing suicidal ideation.
- **Men and Boys Mental Health** - Currently completing an audit of services in Swindon that exist to support the men and boy's mental health agenda. The aim of this is to enable us to identify any gaps in service provision across the system. A survey is being developed and focus groups for boys and men across Swindon will be taking place, so we can hear 'their voices' on how they can better be supported.

# Public Health – Mental Health Updates continued

- **BSW Youth worker in Great Western Hospital** - BSW ICB have funding from NHS England for a 12-month pilot starting early 2024, designed to better support Children and Young People who present at hospital Emergency Departments and those admitted to Children's and Adults Wards and Paediatric Assessment Units with long term conditions who are displaying low-medium level poor mental health needs, concerns or issues. The objective is to provide youth workers across the 3 Acute hospitals in BSW – Great Western Hospital (GWH) being the acute hospital in Swindon. They will support the children and young people and be a link to longer term support available in the community.
- **Swindon Mindful Employers Network** - Commissioned by SBC, the provider, Business West, has re-launched the Swindon Mindful Employer Network. The events are aimed at promoting and improving mental health in the work place to businesses of Swindon. There are a series of events planned throughout the year with the next planned for [May 2024 see slide for further information](#). A Workplace Mental Health Toolkit is also in development with the intention of it being trialled by SBC and then disseminated to wider businesses to help support the mental health of their employees.
- **Reducing Self-harm** - BSW ICB mental health leads to set up a self-harm working group with Swindon Public Health representation. The purpose of this group will be to conduct a review in to hospital admission rates for self-harm in Swindon, as well as further data analysis, to understand in more depth the current high levels compared to the England average. Further strategies are to be developed to prevent self-harm, with a particular focus on children and young people.

# Resources

# "Movement: Moving more for our mental health"

Mental Health Awareness Week 2024 takes place from 13<sup>th</sup> to 19<sup>th</sup> May 2024 and the theme is "Movement: Moving more for our mental health"

The week aims to tackle stigma and help people understand and prioritise their and others' mental health.

Being active is important for our mental health. But so many of us struggle to get enough exercise. We know there are many different reasons for this, so this Mental Health Awareness Week we want to help people to find moments for movement in their daily routines. Going for a walk in your neighbourhood, putting on your favourite music and dancing around the living room, chair exercises when you're watching television – it all counts!

Find out more:

- ✓ Toolkits and information on how to get involved and help raise awareness can be found here - [About Mental Health Awareness Week | Mental Health Foundation](#)
- ✓ [Mental Health Awareness Week 2024 – Mind](#)

Image by Freepik

# Mental Health and Employee Wellbeing Event

- ✓ We're welcoming mindful employers from Swindon and the local area to join us for crucial discussions surrounding mental health and employee wellbeing in the workplace. Helping them to foster an understanding, supportive and productive workplace for you and your employees.
- ✓ During our Swindon Mindful Employer Network series, which is a partnership between Swindon & Gloucestershire Mind, Swindon Borough Council & Business West we'll discuss different challenges and issues that employers might be faced with.
- ✓ There is an exceptional line up of speakers, alongside opportunities for yourself and businesses to engage in more formal conversations in a number of break out room sessions on the day.
- ✓ Speakers include:
  - ✓ **Beckett Frith** from National Mind, covering the topic of LGBTQI+ & Mental Health in the Workplace
  - ✓ **Karen Heaven**, Employee Health, Wellbeing and Inclusion Lead from Swindon Borough Council will be discussing the topic of menstrual health and menopause.
  - ✓ **Sara Bhavani** from Swindon & Gloucestershire Mind, speaking about Mental Health Awareness Week and this year's theme of movement.
- ✓ Online event is on **May 15<sup>th</sup> between 9.30am-11am** during Mental health awareness week

- ✓ Book your free place today: <https://bit.ly/3TAxvcY>

# Talking About Mental Health and Suicide

**Conversation Guide: Talking to someone about mental health**

**Spotting the signs of poor mental health - notice the changes**

Physical symptoms	Behavioural symptoms	Emotional symptoms	Cognitive symptoms
<ul style="list-style-type: none"><li>Headaches</li><li>Stomach issues/ back ache</li><li>Tight jaw, grinding teeth</li></ul>	<ul style="list-style-type: none"><li>Reduced interest/ faster breathing</li><li>Changes to appetite</li><li>Sleeping problems</li><li>Difficulty sleeping</li></ul>	<ul style="list-style-type: none"><li>Avoiding and blaming others</li><li>Eating more, eating less or comfort eating</li><li>Using alcohol, substances or smoking</li><li>Drugging at others</li><li>Increasing money</li><li>Accident prone</li><li>Making plans</li><li>Suicidal</li></ul>	<ul style="list-style-type: none"><li>Worrying about the past or future</li><li>Racing thoughts</li><li>Panic attacks</li><li>Problems concentrating</li></ul>

**Do's and don'ts to having a supportive conversation**

**Do choose the right environment**  
Consider who else is around and can potentially overhear the conversation. If you are in a public place, you may want to move to a private space. Ask them what they would prefer to talk in.

**Do ask open questions**  
Ask them, "How are you today?" or "I've noticed you haven't seemed yourself lately. How are you feeling?"

**Do give your full attention and listen without judgement**  
Offer reassurance that you are there to listen.

**Don't assume you know the answers**  
You're not expected to be an expert. If you don't know what to say, it's okay to say you don't know. It's better to say you don't know than to give advice that you're not sure of.

**Don't compare**  
Sometimes we can draw on our own experiences. But in some instances, they can also make someone feel worse. It's better to say you don't know than to compare.

**Don't challenge, ignore or invalidate**  
Don't share your own story or try to make the person feel better. If someone says they feel worthless and we respond, "You're not worthless, I'm sure of it," we are invalidating what they have said.

**Do reflect back and clarify**  
If someone says, "I'm feeling like I can't go on," you can say, "I hear you. It sounds like you're feeling really sad and you're struggling to go on. Can you tell me more about that?"

**Do show empathy rather than sympathy**  
Sympathy is feeling sorry for someone. Empathy is feeling with someone. Show that you're trying to see where the person is coming from.

**Don't try to find an easy solution**  
What would help someone who is struggling? It's not always easy to find a solution. Sometimes the best solution is to listen and be there for them.

**Don't diagnose**  
You're not a doctor. You're not a therapist. Don't try to diagnose someone. If you think someone might have a mental health problem, encourage them to talk to a professional.

**Do empower the person**  
Ask, "What do you think would help?" rather than "I think you should do this." This makes it empowering.

**Find out more**  
Learn more about mental health conditions. [Mental Health UK](#)

**Join Clic for free**  
Clic is a free online support service for young people. [Join Clic](#)

**Find support**  
Find support for your local area. [Mental Health UK](#)

Starting a conversation about someone's wellbeing can be difficult. There are some useful resources available to help you, such as the information above.

Find out more on this website [Talking about mental health at work - Mental Health UK \(mentalhealth-uk.org\)](https://www.mentalhealth-uk.org)

**Conversation Guide: Talking about suicide**

**Warning signs and starting the conversation**

**How might you spot warning signs?**  
If you're not sure that someone is feeling suicidal, it's better to ask them. Changes in personality and behaviour could be a sign.

**How could you talk to someone?**  
• Empathise with them and encourage them to talk about their feelings.  
• Tell them you care and that they're not alone.

**How could you help?**  
• Encourage them to seek help that they are comfortable with.  
• Ask if they're feeling this before, did their feelings change last time?  
• Reassure them that they won't feel this way forever.

**What won't help someone?**  
• Trying to find an easy solution.  
• Changing the subject.  
• Judging, criticising or blaming them.  
• Avoid telling them.  
• To 'cheer up', 'pull themselves together', 'man up' or 'snap out of it'.  
• That they have no reason to feel like that.

**What you can do**  
• List the people that you trust (the family and friends), and share the name of your GP, Samaritans, or call 999 if you need immediate help.  
• Share the places you feel safe, it may be a library, or know to go to A&E if you need immediate help.

**Who would you talk to?**  
• Think about all the good things in your life, what are you looking forward to? These can be small wins.  
• Try to get through the day rather than focusing on the future, you may feel more able to cope in a few days.  
• What are the activities you enjoy which take your mind off what you're thinking?

**What things make you feel worse which you should avoid?**  
• Knowing and trying to stay away from things that trigger your feelings or stress levels. They're different for everyone, but it could be certain music, photos or drugs and alcohol.  
• What are the people that you're closest to?  
• Sometimes it's helpful to share them with your family and friends.

**Why not try this breathing exercise?**  
Sit on a chair or on the floor. Keep your back straight and your shoulders back. Close your eyes and focus on your breathing. Think about how your breathing feels.

**For more information**  
• How could you help someone stay connected?  
• Can suicide affect anyone?  
• How could you encourage others in your community to help prevent suicide?  
• How might you support someone experiencing suicidal thoughts?

# Worried about financial abuse?

- ✓ **Swindon Domestic Abuse Support Service** Offers specialist support to victims and survivors of domestic abuse living in Swindon. Support is tailored to meet each person's needs, including mental health, wellbeing, and financial needs. We understand the impact that financial and psychological abuse can have on mental health and personal finances. Services can be accessed via a 24 hour helpline 01793 610610 and at [Swindon Women's Aid](#).
- ✓ **Women's Aid** - National charity working to end domestic abuse against women and children. For more information visit [Women's Aid](#).
- ✓ **Men's Advice Line** - National support for male victims of domestic violence, which offers telephone, email and web chat support. For more information visit the [Men's Advice Line](#).

# Suicide where there is domestic abuse

## Reminder!

- Where a victim has taken their own life (suicide) and the circumstances give rise to concern, for example it emerges that there was coercive controlling behaviour in the relationship, or if the victim has been discussed at MARAC consideration for a domestic homicide review should be undertaken.
- Even if a suspect is not charged with an offence or they are tried and acquitted.
- Reviews are not about who is culpable. Consideration should be given to a joint review where there is a safeguarding concern relating to adults or children or a mental health review.
- Further information can be found on the:
  - [DHR Statutory Guidance](#)
  - [Local Child Safeguarding Practice Reviews and Case Learning leaflets - Swindon Safeguarding Partnership](#)
  - [Safeguarding Adult Reviews \(SAR's\) - Swindon Safeguarding Partnership](#)
- Further information can be found in the practice brief [Domestic abuse within families - learning from reviews - Swindon Safeguarding Partnership](#)

**NB** local protocols are currently being updated in relation to DHRs.

# Pregnancy in Mind Information - NSPCC

The screenshot shows a Padlet board with the title 'NSPCC Pregnancy in Mind (PiM) Information'. It contains four cards:

- WE ARE HAVING A BABY**: A card with a collage of letters and the text: 'Pregnancy in Mind is a preventative mental-health service designed to support parents-to-be who are at risk of, or currently experiencing, mild to moderate anxiety and depression during their pregnancy. It is an antenatal group intervention delivered by professionals after the first trimester of pregnancy. Parents-to-be are'.
- What is Pregnancy in Mind (PiM)?**: A card with an image of hands holding a baby and the text: 'PiM is a 8-week group work programme for mothers, fathers and partners. We also offer 2 individual postnatal wellbeing sessions.'
- Want to make a referral?**: A card with an image of a pregnant woman and the text: 'We welcome self-referrals from mums, dads, partners and non-birthing parents. We also accept referrals from professionals. Most people can be referred to PiM, we want to make sure we can offer the best support to individuals, couple and families co-parenting.'
- Dads and partners**: A card with an image of a couple and the text: 'We are aware that dads and partners can sometimes feel excluded from pregnancy services. We feel it is important that they are aware of our service and that they can access PiM in their own right as well as a support. If you are a professional referring, we ask that you'.

- Pregnancy in Mind is a preventative mental-health service designed to support parents-to-be who are at risk of, or currently experiencing, mild to moderate anxiety and depression during their pregnancy.
