Experiencing neglect during childhood can have significant, long lasting, and pervasive consequences, affecting all aspects of a child's development.

Published safeguarding reviews both locally and nationally highlight that professionals face a big challenge in identifying and taking timely action on neglect.

This webinar is an opportunity to find out more about:

- ✓ Learning themes from local reviews.
- ✓ What is happening locally in response to this learning.
- ✓ Resources for professionals to support identification of neglect, building confidence when assessing and evidencing neglect concerns and speaking with families.

This event is open to everyone from across the Swindon Safeguarding Partnership.
